

KENWORTH
THE WORLD'S BEST

T440

MAKING DELIVERIES OR WORKING CONSTRUCTION, GET HEAVY-DUTY PERFORMANCE FOR MEDIUM-DUTY APPLICATIONS

When “medium duty” just doesn’t seem heavy duty enough for the job you have in mind, here’s a great idea: Kenworth T440. A workhorse solution for more demanding regional haul, pickup and delivery, municipal and vocational applications, the T440 far outpaces other trucks in this category.

Available as a straight truck or tractor in GVW ratings from 33,000 lbs to 68,000 lbs, the T440 features modern aerodynamic styling, excellent visibility and maneuverability, superior ergonomics, and a fuel efficient powertrain – all, in a robust chassis design meant to deliver a lot more value over the long haul.

Featuring a set-back front axle, a tight turning radius and an optional automatic transmission, the T440 is agile, comfortable and easy to drive for new and experienced drivers alike – even in congested urban situations.

KENWORTH.
The World's Best.®

Perfect for the toughest jobs, the T440 features clear frame rails and a variety of exhaust packages to easily support a wide range of bodies and chassis-mounted equipment. It comes standard with the powerful yet economical-to-operate PACCAR PX-8 engine, or the optional Cummins ISL engine.

Standard equipment includes best-in-class forward lighting with Halogen projector headlamps, multiplexed dash incorporating Kenworth’s Driver Information Center and a productive, doghouse-free premium interior.

Optionally, Kenworth offers its spacious Extended Day Cab with an additional six inches of length and five inches of cab height, a 38-inch Kenworth AeroCab sleeper, an aluminum or 3-piece aerodynamic bumper and high intensity discharge (HID) lighting. The T440 can also be ordered with an air ride cab, factory-installed power take-off (PTO) and one lift axle.

The T440 is available in three cab/sleeper configurations, standard day cab and the optional extended cab and 38" AeroCab sleeper. Clean frame rails and an exhaust-free back of cab clear the way for quick and efficient installation of a wide range of bodies and chassis-mounted equipment. A weather-tight pigtail simplifies final wiring assembly. These attributes provide cost effective body installations.

The T440 incorporates the same highly reliable and ergonomic multiplexed dash installed in Kenworth's Class 8 product line. The popular Driver Information Center helps drivers optimize vehicle performance. Shown with optional Kenworth's NavPlus™ business tool incorporating truck route navigation, vehicle monitoring, Bluetooth, diagnostics, telematics, SIRIUS Satellite Radio®, an MP3 player, a back-up camera option and much more. NavPlus offers laptop computer functionality right in the dash.

SAVING MONEY ON MAINTENANCE STARTS RIGHT HERE

On a Kenworth T440, things are quicker to get to, less strenuous to take apart and faster to put back together which means less downtime and lower repair bills. Even daily inspections have been simplified with all fluid level checks – coolant, oil, power steering and windshield washer reservoir – located in one easy-to-reach place.

At the heart of the T440 is a fully optimized and integrated drivetrain featuring the quality and proven reliability of the PACCAR PX engine. Expect longer service intervals, increased uptime, lower operating costs and higher resale value.

To meet your specific job requirement, you can choose between the rugged PACCAR PX-8 engine rated at 350 HP and 1,000 lb-ft of torque or the Cummins ISL at 380 HP and 1,300 lb-ft of torque.

The stylish grille is made of aluminum mesh for enhanced strength and long lasting good looks. An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs. The bumper is constructed of three pieces for easier, less expensive repair.

OF COURSE YOU HAVE CHOICES. THIS IS YOUR KENWORTH.

Your T440 is available with plenty of job-specific and appearance options. Here are just a few of them.

The fully-trimmed standard Summit interior shown with optional Kenworth Air Cushion Plus high back driver seat and Kenworth Toolbox Plus low back passenger seat.

Optional center console with two power ports, cup holder and convenient storage makes the perfect in-cab workstation.

Easy-to-reach and operate dash control panel for Allison automatic transmissions. Also incorporates a handy cup holder.

DEF tanks in three sizes complement your choice of fuel tank size and provide fill interval options appropriate for your application. Fuel tanks in 22" and 24.5" range in size from 56 to 150 gallon, to offer clear back of cab configurations.

Cab corner windows greatly enhance visibility in tight places.

To add a distinctive look to your T440, Kenworth offers a wide variety of chrome and polished options. Polished aluminum wheels, fuel tanks and DEF tank covers are just few.

An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs. Choose the standard halogen or optional HID Xenon lamps.

Heated and electronically-controlled aerodynamic mirrors minimize road spray, keeping visibility at a maximum.

HEAVY-DUTY SUPPORT WHENEVER – AND WHEREVER – YOU NEED IT

The reliability and moneymaking potential of your business relies on the dependability of your support system – another great reason to invest in a Kenworth.

The minute you take delivery of your Kenworth, you gain 24/7 access to one of the most extensive and reliable parts and service organizations in the trucking industry. People who know your truck inside out and can show you how to lower operating expenses, maximize uptime, optimize truck performance and profit from your investment. Comprehensive preventive maintenance programs, expedited servicing, complimentary roadside assistance and cost management service cards are among the valuable programs available through Kenworth PremierCare®.

Perhaps you'd prefer to focus your attention and resources on your core business, save interest expense and improve cash flow. PacLease offers a number of truck rental and leasing programs that can be tailored to fit your operating requirements precisely. www.paclease.com
